Optional Kits For Slide-In Electric Ranges
(Available at additional cost)

Lower/Side Trim Kits Accessory Backguards

JXS56 - Lower Trim Kit
JXS86 - Vertical Side Trim Kit
JXS37 - Backguard
JXS77 - Body Sides

Note: To reduce possiblity of scorching of the side wall adjacent to the heating elements, it is recommended a minimum of 6" spacing from adjacent side walls be allowed for possible extended, high-heat, no-load operation of heating elements.

Receptacle Location: For all 30" Slide-In Ranges locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Note: Cabinets installed adjacent to slide-in ranges must have an adhesion spec of at least 194°.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.
